THE PERFECT PLACE TO *Grow*

BUILDING QUALITY HOMES FOR OVER 45 YEARS

Since 1977, Geranium has been guided by the vision to create communities and neighbourhoods that are meticulously planned, expertly executed, and designed with respect for the environment and the families who will call them home.

Our integrated approach to each new development is always inspired by a fresh perspective; to design neighbourhoods best suited to the features of the land and to contribute to the quality of life for home buyers, while adding value to the local community.

For over 45 years, Geranium has adhered to a belief that the concept of community goes well beyond the bricks and mortar of building homes. It is about building a future for those who will call them home.

OUR *Legacy* IS YOU

At Geranium, we believe community is everything. Which is why we feel it's vital to invest in the communities we serve. By understanding what makes an area special and participating in local sponsorships, our care for community leaves a lasting and positive impact on the places our purchasers call home.

We design and build homes that raise the bar for craftsmanship, quality and aesthetics. The result is a level of value homeowners won't find anywhere else and a commitment to homebuyer satisfaction that spans generations.
